Sir.

Dated Simla, the 21st June 1926.

Survey of medical and public
health expenditure.

I am directed to forward for your information and such action as may be considered necessary, a copy of a letter from the Government of India in the Department of Education, Health and Lands, No.699-Health, dated the 19th May 1926, to Government of Bombay, etc., and to say that the Government of India are prepared to extend to the smaller areas under your direct administration the benefits of the more generous policy which it is now proposed to inaugurate.

I have the honour to be,

Sir,

Your most obedient servant,

Under Secretary to the Government of India.

No.609-Health.

GOVERNMENT OF INDIA.

Department of Education, Health and Lands.

N.W.F.P.
Hon'ble the C.C., Ajmer-Merwara.

Survey of medical and public health expenditure.

Sir,

I am directed to address you with regard to a survey of medical and Public Health expenditure in Aden etc.

Owing to the financial position during recent years the Government of India have not been able to undertake expenditure in connection with the expansion of medical and Public Health facilities in territories directly administered by them on as large a scale as they might have wished. But with the improvement of the financial position it is now possible to take up the consideration of schemes of development and improvement. Although the Government of India cannot commit themselves in advance to any expenditure, they are prepared to give due consideration to any scheme that may be put before them and to provide funds as and when money becomes available with due regard to other competing claims which may demand prior attention. They accordingly request that they may be furnished with a considered programme for the provision of such further medical and Public Health facilities as may be considered

necessary

necessary in Mendota extending over a period of five years from the financial year 1927-28. They may also be furnished with the a statement showing the expenditure incurred on medical and Public Health during the past five financial years distributed under suitable heads and the probable expenditure in the next five financial years that may be involved by the schemes that may be proposed.

2. As it is proposed to consider jointly all the schemes that are sent up as early as possible your reply together with the programme and the statement should be sent to this Department by the 1st August 1926 at the latest.

I have, etc.,

Sd/- J.T.Thorp.

Secretary.

True copy.

Subject:- Survey of Medical and Public Health expenditure.

Sir,

In connection with your letter No.5573 dated the 29th June 1926 in which information is requested concerning medical (and sanitary) projects for the next five years, I am submittin a list of requiremonts in connection with the Bowring and Lady Curzon Civil Hospitals for which the grants are at present insufficient.

These alterations and improvements are essential and some of them of urgent necessity, and Government assistance is most desirable.

An estimate of the approximate cost of these works is herewith attached for information.

I have the honour to be,

S i r,

Your most obedient servant,

J. McPherson

Lt-Col.I.M.S.,

Residency Surgeon.

CIVIL AND MILITARY STATION, BANGALORE,
MUNICIPAL OFFICE.

DATED 24 July 1926.

RESIDENT'S OFFICE,
BANGALORE.
Register No. 6076
Date of Receipt 26.7.26
Cells No. 143/26

From

T. B. RUSSELL, Esq., I.C.S.,
President, Municipal Commission,
C. & M. Station, BANGALORE.

The Secretary to the Hon'ble the Resident in Mysore,
Bangalore.

SIR,

In reply to your No.5574/143-1926 dated the 29th June 1926 I have the honour to forward, herewith, a programme for the provision of further public health facilities in the Civil and Military Station prepared in consultation with the Residency Surgeon. The Residency Surgeon informs me that he is also forwarding separately certain proposals for medical facilities in the hospitals, with which I have no concern. As the time is short, it has not been possible to consolidate the medical and public health proposals in a single programme. I understand the Residency Surgeon regards some of his proposals as urgent and I leave it to the Resident to decide as to the order of preference which should be given to them and to the items in the programme submitted herewith.

2. Owing to the shortness of the time allowed only an outline of the different schemes could be prepared. Detailed proposals for any or all will be provided if and when required.

3. I enclose a statement showing the expenditure on the various items of the programme spread over a period of 5 years from 1927-28.

4. I understand that the statement of expenditure by

P.T.O.

Government during the past five years asked for in para 2 of your memo is being prepared in your Office.

I have the honour to be,
Sir,
Your most obedient servant,

MVL.

President, M. C.

24/7/26

Enc. I

PROGRAMME OF ADDITIONAL PUBLIC HEALTH REQUIREMENTS FOR THE CIVIL AND MILITARY STATION, BANGALORE.

--:0:--

(1) Provision of modern drainage and reconstruction of public latrines.

Initial cost Rs.1,00,000. *Recurring cost nil.*

A scheme to cost Rs.79,973/- was sanctioned in Government of India Memo No.295 A, dated the 30th October 1923 but action on it was deferred pending settlement of the question as to whether it was desirable to use unfiltered water for this purpose and because neither filtered nor unfiltered water were available at the time vide Mr. Austin's letter No.Gt.23/80 of 1917 dated the 11th December 1923 and Resident's proceedings No.10649 dated the 21st December 1923. As the Railway scheme for pumping water from Ulsoor lake to Cantonment Station and supplying it to the bazaars is now nearing completion, sufficient unfiltered water for this part of the drainage scheme is available. This water has been found by analysis to be of fair potability and could be chlorinated if necessary. It is now being supplied in various parts of the Station for other than drinking purposes and I do not anticipate that there would be any risk whatsoever in using it for flushing. Government's orders in their Memo No.295 A, of October the 30th 1923 were to the effect that the use of unfiltered water should be avoided if possible. There is no possibility of using filtered water for this purpose even in the remote future vide para 19 (3) of Mr. Mulling's report on the Bangalore Water Supply. If the use of unfiltered water is still considered objectionable I would request that the objections may be stated in detail and the matter more closely examined in the light of the above remarks. I consider that this scheme would be of very great value to the health of the Station and would strongly urge that funds may be

made

made available to carry it through. The addition of Rs.20,000/- to the original scheme is to provide for remodelling the public latrines and connecting them with the underground sewerage wherever possible.

(2) Venereal Disease Clinic.

Initial expenditure Rs.15,000/- for building and equipment for an outdoor dispensary.	Recurring cost Rs.3,000/- for (1) Maintenance of staff i.e. a nurse, 2 attendants and allowance to supervising medical officer. and (2) Medicines, contingencies etc.

The incidence of Venereal disease in Bangalore is abnormally high, at any rate among the Military, and the Military authorities have frequently asked for the assistance of the Municipality in endeavouring to stamp out Venereal disease as far as possible. The need for a clinic of this nature has been recognised for a long time by the Military authorities, by medical officers both Civil and Military and by private medical practitioners. It is proposed to start a clinic on the lines of those already working in Bombay.

(3) Reconstruction of and improvements to the Beef and Poultry Markets, Fish stalls and the Mutton stalls.

Initial expenditure Rs.1,00,000. Recurring expenditure nil.

S.10
S10-15

The scheme for a market costing Rs.4,22,200/- was sanctioned in Government of India No.575/1295 - Est. dated the 20th February 1923. Owing to altered circumstances the scheme was cut down to Rs.1,00,000/-. The smaller scheme provided accommodation for fruit, vegetables and miscellaneous articles only. It made no provision for beef, mutton, poultry etc. The existing arrangements for these are unsatisfactory and it is proposed to remodel them on the existing site.

(4) Expansion of welfare work.

Providing 2 addttional outdoor centres and increasing the existing staff.

Initial expenditure Rs.10,000/- for two buildings at Rs.5,000/-.	Recurring expenditure Rs.7,000/-.

The Municipal Commission now spend Rs.21,000/- annually on welfare work of which a sum of Rs.15,000/- is met from Government grants. The existing centres do not cater adequately for certain outlying areas to the north and south of the Station and it is proposed to have an additional centre in each of these. In addition to the staff required for the two new centres which would consist of 2 nurses, 2 ayahs and an attendant, it is also proposed to strengthen the supervising staff by employing an extra Lady Health Visitor. The remainder of the recurring expenditure is for medicines etc. for the new centres.

(5) Provision of a Maternity Home for the south west portion of the Station.

Initial cost Rs.12,500/- for buildings.	Recurring charges Rs.2,500/- for a resident nurse, attendant, medicines and contingent charges.

This area is about 3 miles distant from the 3 existing Maternity hospitals (Lady Curzon, Zenana Mission and the Hajee Sir Ismail Sait's hospitals). The Maternity Home is required to provide accommodation for not less than 6 women before they are sent to the Maternity Hospitals. There is at present a small home of this kind attached to one of the welfare centres which is managed by the Local Child Welfare Association at a cost of Rs.1,200/- annually. This is much used and has produced excellent results.

(6) Scheme for a full medical inspection of schools.

Initial expenditure Rs.1,000/- for instruments etc.	Recurring expenditure Rs.7,000/ for (1) trained medical sub-ordinate Rs.200-300 plus 50/- conveyance allowance (2) Nurse on 100-125 plus 50/- conveyance allo[illegible] (3) Clerk [illegible]

per mensem (4) medicines contingencies etc. Rs.600/- per annum.

It is proposed to provide for a complete unit forming part of the Health Department to carry on a medical inspection in all schools in the Station. A full time trained medical subordinate and a qualified European or Anglo-Indian nurse would be in charge of the work. At present the Health Officer and his subordinates are doing work of this nature on a small scale for the 16 Municipal schools. The Local Government gives an annual grant of Rs.400/- for medicines and sundries. The number of pupils so examined is about =.3,000=. The work is interesting and valuable and could be considerably expanded if the funds asked for are provided.

(7) Health Department Laboratory.

Initial expenditure Rs.1,500/- for a new building and Rs.1,500/- for additional equipment.

At present all Municipal Bacteriological work is done at the Government (Bowring Hospital) Laboratory the Municipality paying Rs.50/- monthly towards it. At the request of the Residency Surgeon it is proposed to have the Municipal work done separately. The amount of Municipal work could be increased with advantage and that of the hospital is sufficient to occupy the whole time of the existing staff. Additional Municipal staff is not proposed as there is a post of Laboratory Assistant already in existence.

(8) Provision of extra Sanitary staff.

Initial expenditure nil. Recurring expenditure Rs.2,400/- for an additional Sanitary Inspector on Rs.50-5-75 and a Food Inspector on Rs.100-5-125 plus Rs.5/- cycle allowance.

At present the Municipality has only 3 Sanitary

Inspectors for an area of nearly 13 square miles. It cannot afford to increase the staff. The present staff is insufficient to exercise adequate control in all matters and a higher standard of sanitation would be reached if it could be increased. I understand that the Government of Madras have laid down that there should normally be 1 Sanitary Inspector for every unit of population of from 10,000 to 20,000 according to circumstances and gives monetary assistance to enable this scale to be followed. The population of the Civil and Military Station is 1,18,940.

(9) Plague Survey.

Initial expenditure nil.	Recurring expenditure Rs.1,000/- for a Sub-Overseer an Attendant and contingent charges.

The Commission were spending Rs.1,000/- annually on work of this nature up to and including 1924-25 when it had to be stopped owing to lack of funds. The work was being carried on, on the following lines:-

A detailed survey of areas known to be plague foci was made giving full particulars of the sanitary defects observed. Action under the Municipal Law was taken to have these put right as far as possible.

(10) Additional Dispensary for the south west of the Station.

Initial cost for buildings and fittings Rs.10,000/-.	Annual maintenance charges Rs.5,000/-.

This part of the Station has expanded greatly especially by the construction of the new settlement of Austin Town which has a population of 3,000 and was started with the object of removing people from the congested bazaar areas to more healthy surroundings. It also includes the outlying villages of Domlur, Vannarpet and Nilsandra which are about 3 miles from

the

the nearest Municipal Dispensary and have no other facilities for medical relief. A Dispensary in this area should secure a good attendance.

President, M. C.

Dated Bangalore, 29th July 1926.

Survey of Medical and Public Health Expenditure.

Sir,

I have the honour to refer to your letter No.D.1825-G., dated the 21st June 1926 and to forward a programme for the provision of further public health facilities in the Civil and Military Station, Bangalore, submitted by the President, - Municipal Commission in consultation with the Residency Surgeon, Bangalore. A list of requirements in connection with the Bowring and Lady Curzon Hospitals, Bangalore, received from the Residency Surgeon is also enclosed. The Residency Surgeon considers that these alterations and improvements are essential and some of them are of urgent necessity.

2. Owing to the shortness of the time allowed only an outline of the different schemes could be prepared. Detailed proposals will be submitted if and when required.

3. Four statements showing the expenditure incurred by the Government on Medical and Public Health during the past five financial years distributed under suitable heads and the probabl expenditure in the next five financial years that may be involv by the schemes proposed are enclosed.

4. I would add that for reasons similar to those given in paragraph 3 of my letter No.4806/83-26, dated the 1st June 1926

it

it is not possible at present to make further provision for expenditure on Medical and Public Health arrangements from the Bangalore Assigned Tract Revenues.

I have the honour to be,

Sir,

Your most obedient servant,

CIVIL & MILITARY STATION, BANGALORE,
MUNICIPAL OFFICE.

Dated, 11 October 1926.

From

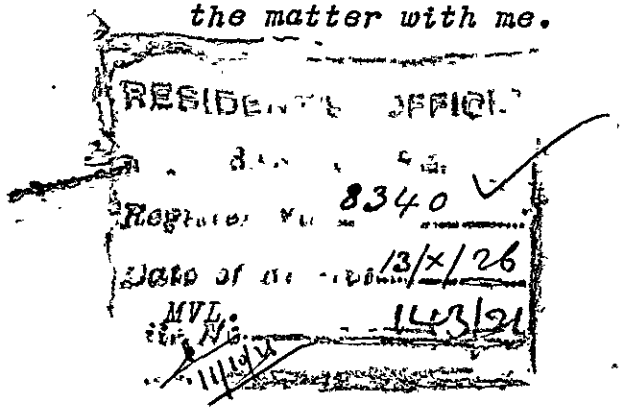
T. B. RUSSELL, Esq., I.C.S.,
President, Municipal Commission,
Civil and Military Station, BANGALORE.

To

The Secretary to the Hon'ble the Resident
in Mysore,
Bangalore.

SIR,

S.7 With reference to your Memo No.8710/143-1926 dated the 8th October 1926, I have the honour to state that the schemes sent in by me were classified in the order of necessity and I have no information as to the schemes sent in by the Residency Surgeon separately - please see para 1 of my letter No.Gt.70/26/95-26 dated July 24th. I am asking the Residency Surgeon to go into the matter with me.



I have the honour to be,
Sir,
Your most obedient servant,

President, M. C.

Works in order of urgency.

1) Quarters for Anglo-Indian Nurses.
3) Quarters for the House-Surgeon (Male).
4) Convert ~~House~~ House-Surgeon's Quarters into Quarters for the Lady Asst. Surgeons.

These three projects are part of one scheme, which has long been in contemplation and has now become urgent.

There is urgent necessity for better housing of the present staff of European and Anglo-Indian Nurses, some of whom at present live three in a room, and others two in a room. There is also urgent necessity to provide quarters for the additional staff which has been applied for and which is urgently required to run this hospital which is badly under-staffed, and has no provision for leave, sickness, and other emergencies affecting the staff.

2. Quarters for the House Surgeon (Male) are required as it is necessary to evacuate the Male House Surgeon into a renovated and enlarged quarters and to make his present quarters suitable for accommodation of two Lady Asst. Surgeons.

The evacuation of the quarters at present occupied by the Lady Asst. Surgeons will provide the necessary site and part building for the proposed new block of quarters for Europeans and Anglo-Indian Nurses.

3. No. 5 annexe to wards for moribund cases.

4. No. 19 part provision for water carriage system for the Hospitals.

It may be noted that the figure of Rs.60,000 mentioned appear far in excess of the actual requirements for this project, as it is hoped to complete the most urgent portion of this scheme this year which effects the Lady Curzon Hospital, with money already at our disposal from this year's grant. The water carriage system is especially necessary in the Lady Curzon Hospital as the crowding together of midwifery cases with surgical and medical cases in connected blocks, of necessity served by the same nurses, involve the very greatest attention to sanitation and general cleanlin so as to avoid puerperal fever/sepsis among the patients. Probably Rs.25(instead of Rs.60000 will suffice to complete the scheme.

5. Scheme 6-(Quarters for Night Nurses &1Sister) are essenti

Scheme No.7 not urgent, may be defferred.

Scheme No.9. May be ~~deferred~~ deleted entirely.

Scheme 10(Baby Ward). 11 (Isolation Wards for enteric etc).
12 (Isolation for Tuberc... Lady Curzon - Bow

Bowring Hospital may be deferred as not urgent, as also No. ~~15~~ 17 (Quarters for Indian Nurses)

No.8 Enlarging Sterilizing Room (Steam Sterilizer, comes next ~~x~~ and is necessary)

No. ~~13~~ 15)
No. ~~14~~ 16) are necessary.

No. ~~16~~ 18. Examination Room for Residency Surgeon not urgen may be deferred.

Dated Bangalore, 20th October 1926

SURVEY OF MEDICAL AND PUBLIC HEALTH EXPENDITURE.

SIR,

In reply to your telegram No.1364/H., dated the 7th October 1926, I have the honour to forward a revised programme for the provision of medical and public health facilities in the Civil and Military Station, Bangalore, classifying the schemes in the order of necessity. The Residency Surgeon, Bangalore has now recast the proposals shown in the list forwarded with my letter No.6491/143-1926, dated the 29th July 1926. The list now forwarded may be substituted for that list.

I have the honour to be,

Sir,

Your most obedient servant,

(Sd) K. Evans Gordon

Simla, the 9th May 1927.

From

C.C. Bajpai, Esquire, C.I.E., O.B.E.,

Deputy Secretary to the Government of India,

To

The Government of Bombay, Chief Commissioners of Delhi, Baluchistan, N.W.F.P., and Ajmer-Merwara.

Survey of medical and public health expenditure.

Sir,

I am directed to refer to correspondence ending with your letter No. 6[illegible]-3, dated the 29th October 1926, telegram 6-37-[illegible], dated the 25th September 1926, 6-37-[illegible], dated the 11th October 1926, 11411-C/[illegible]/77/1926, dated 29th November 1926 19301, dated the 14th October 1926, and to say that it has not been found possible to make any provision for the programme of expansion of medical and public health facilities in the budget estimate for 1927-28. It would help the Government of India to come to a decision in the matter if they had information to show how the existing expenditure under these two heads from Central Funds in Aden etc., compares with corresponding expenditure from provincial revenues in the Presidency of Bombay etc. For this purpose a tentative statement has been prepared indicating the kind of information required. The Government of India will be glad if the data asked for could be supplied to this Department not later than 1st July 1927. If the Government of Bombay consider that you

any

to Baluchistan and Ajmer.

any additional information would be helpful, it is hoped that that will also be supplied.

I am also to suggest that if the Government of you Bombay consider ~~xxxxx~~ it desirable the proposals made by you may be reconsidered with a view to possible modification and local Government's final views communicated to this Department with the statement asked for your in the preceding paragraph.

I have, etc.,

Sd. G.S. Bajpai,

Deputy Secretary to the Government of India.

All communications should be addressed to the Secretary to the Resident in Mysore, Bangalore, by designation and not by name.

Secy: to the Resident

K.S. Raghavan Ayya

Head Accountant.

From - The Deputy Secretary to the Government of India
in the Foreign and Political Department,

To - The Hon'ble the Resident in Mysore.

BANGALORE
Register No. 6523
Date of Receipt 22/7/27

Memorandum No.5(16)-A.

Dated Simla, the 16th July 1927.

Survey of medical and public health expenditure.

Reference correspondence ending with your letter No. 9040 143-1926, dated the 20th October 1926 to the Secretary to the Government of India in the Department of Education, Health and Lands.

2. It has been decided that the proposals so far as they relate to the Civil and Military Station, Bangalore, will not be included in the five years programme but treated in the ordinary way as under existing orders all such expenditure is to be met from the revenues of the Assigned Tract. Please submit therefore separately detailed proposals in connection with the works, both Medical and Public Health for 1927-28 and 1928-29. It should also be reported whether it is possible to meet the expenditure on the works recommended during 1927-28 by re-appropriation from within the sanctioned budget grants for the current year of the Assigne Tract. If not the expenditure connected with these works should be provided for in your budget the Assigned Tract for 1928-29.

Sd/- A.C.Lothian,
Deputy Secretary to the Government of India.

Attested.

E. C. Otto

Superintendent,
Foreign and Political Department.

The Secretary

to the Resident in Mysore,

B a n g a l o r e.

Sir,

S.18

Reference:- Your Memorandum No.8065/143-1926, dated the 6th. August 1927 forwarding Memorandum No.5(16)-A, dated the 16th July 1927 from the Government of India in the Foreign & Political Department.

S.17

From the above it appears that for the year 1927-28 a sum of Rs.23,000/- has been provided for quarters for 15 Anglo-Indian Nurses and Rs.22,000/- for Quarters for House Surgeon and conversion of House Surgeon's Quarters for 2 Lady Assistant Surgeons. As all these works must follow in an orderly programme and it is essential that items Nos.2 and 3 should take precedence of item No.1, I have the honour to request sanction to proceed with items 2 and 3 in the first instance during the present official year.

Pros. [illegible] 19 . Nos. D-1825-ey, dated 21st June 1926 from the Govt. of India in the Foreign & Pol: Depts.

Subject.

Survey of Medical and Public Health expenditure.

Notes and Orders.

Please see P.W.S. The Govt: of India have forwarded a copy of a letter from the Department of Education, Health and Lands — No: 699-Health, dated the 19th May 1926 to the Govt: of Bombay etc, regarding survey of medical and Public Health expenditure, for information and such action as may be considered necessary. In the P.W.S. the Govt: of India state that they are prepared to extend to the smaller areas and the Residents' direct administration the benefits of the more generous policy which it is now proposed to inaugurate.

In this connection the

S. 1

Copy.

See para 3 of letter No: 702-Est. B., dated the 1st June 1917 in which the Govt: of India have stated that any future expenditure on sanitation and education must be incurred entirely at the charge of the revenues of the Mysore Assigned Tract and in proportion to their capacity to meet it.

If approved a copy of P.U.6. with enclosure may be sent to the Residency Surgeon and the President, Municipal Commission, with the request that the Honble the Resident may be furnished with a considered programme for the provision of such further medical and Public Health facilities as may be considered necessary in the Station. After the receipt of the proposals it may be examined whether the Assigned Tract Revenues will be able to meet the expenditure or not. Draft submitted for approval.

Puc.II

Letter No.G.I-70/26/95-25, dated the 24th July 1926, from the President, Municipal Commission, Civil & Military Station, Bangalore.

Sl3/A

Enc. to puc.I

Please see sls. 1 and 2/143-26 and the office notes in paras 1 to 3. Two statements showing the expenditure incurred on - Medical and Public Health during the past five financial years in the C & M Station, Bangalore, are submitted at Flag.W. In ~~the~~ PUC.I the Residency Surgeon has submitted a list of - requirements in the Bowring and Lady Curzon Civil Hospitals Bangalore. The list may be divided into two parts:-

Flag T

	Non-recurring. Rs
I. Quarters for Hospital establishment - items 1, 2, 3, 4, 6, and 17.	78,200/-
II. Expansion of the Bowring and Lady Curzon Hospitals items 5,7,8,9,10,11,12,13 14,15,16,18,19	1,25,200/-
	2,03,400/-

Both the above parts may be submitted to the Government of India. The average expenditure for each of the five - year 1927-to 1931-32 comes to Rs.40,680/-

PUC.II

The President, Municipal Commission, has submitted the following programme:-

1927-28.	Non-recurring cost. Rs	Recurring cost. Rs
1. Provision of modern drainage and reconstruction of public latrines	1,00,000/-	Nil
2. Venereal Disease Clinic.	15,000/-	3,000/-
	1,15,000/-	3,000/-
1928-29.		
3. Reconstruction of and improvements to the Beef and Poultry Markets, Fish Stalls and the Mutton stalls.	1,00,000/-	Nil.
Add Recurring charges under item 2		3,000/-
	1,00,000/-	3,000/-
1929-30		
4.Extension of welfare work.	10,000/-	7,000/-
5.Provision of Maternity Home	12,500/-	2,500/-
Add recurring charges under item2.		3,000/-
	22,500/-	12,500/-
1930-31.		
6.Scheme for a full medical inspection of schools.	1,000/-	7,000/-
7. Health Department, Laboratory.	3,000/-	Nil.
Add recurring charges under items 2, 4 and 5.		12,500/-
	4,000/-	19,500/-
1931-32.		
8. Provision of extra sanitary staff.	Nil	2,400/-
9. Plague survey	Nil	1,000/-
10. Add'l Dispensary	10,000/-	5,000/-
Add recurring expenditure under items 2, 4, 5 and 6.		19,500/-
	10,000/-	27,900/-
T o t a l	2,51,500/-	65,900/-

The total amount asked for under "Medical" and Public Health for the next five years are given below:-

	Non-recurring.	Recurring.
Medical	2,03,400/-	Nil.
Public Health	2,51,500/-	65,900/-
	4,54,900/-	65,900/-
		5,20,800/-

The Bangalore share of the surplus for the year 1926-27 is estimated at Rs.50,000/-. Therefore the Assigned Tract - Revenues will not be in a position to finance all the above schemes. It may be possible that the Bangalore share of the surplus will increase in the near future if Mr.Boag's scheme of retrenchment are given effect to in full, but then the Municipality have asked for a subvention to pay of the lonas they are taking for water supply.

Under the orders of the Government of India contained in para 3 of Foreign and Political Department's letter No.702-Est.B., dated the 1st June 1917 the expenditure on sanitation and Education should be incurred entirely at the charg of the revenues of the Tract and in proportion ~~of~~ to their capacity to meet it. It appears therefore that the Government of India will not sanction any non-recurring and recurring grants to the C & M Station from Imperial revenues.

Sl.151
613-99

If approved the scheme as framed by the Residency Surgeon and the President, Municipal Commission may be submitted to the Government of India with the same remarks as were made when the Educational programme was submitted to the Govt. of India - vide para 3 of sl.4/83-1926.

Subject to approval a draft is submitted.

T. N. Thangavelu

Issued vide 8065-67 G.S. 27

Letter No: 1079/160, dated the 31st August 1927 from the Residency Surgeon Bangalore.

Please see ses. 17 and 18 and the office notes in para 18.

In para 2 of the Foreign and Pol: Dept's memo: No: 5-(16)-A., dated the 16th July 1927 the Govt: of India have asked that detailed proposals in connection with the works both Medical and Public Health for 1927-28 and 1928-29 may be submitted separately. They wanted to know whether [redacted] is possible

le 17

to meet the expenditure on the works recommended during 1927-28 by reappropriation from within the sanctioned budget grants for the current year.

From the above it is clear that they have not provided anything in the current year's assigned Tract budget. It may not be possible to meet Rs. 23,000/- required for item I by reappropriation during the current year. Therefore provisions for items 1, 2 & 3 should be made in the next year's budget estimates. The question of precedence does not arise. Draft submitted for approval.

14.9.27

S2.23. Issued No: 9477 dt 16-9-1927.

Please see para 2 of Se. 22 (162-25) in which it is stated as follows:—

"The opinion of the Municipal Commission may at any time be invited by the Resident as to the objects other than Municipal to which a portion of the Tract revenues would be applied".

It is proposed to finance the schemes Nos: 8 to 14 shown at Flag I from the Bangalore share of accumulated surpluses. The schemes Nos: 8, 9, 10, 13 and 14 appear to be ordinary works chargeable to assigned Tract revenues and therefore there is no need to consult the Municipal Commission in the matter. Proposals for item 12 (Isolation Hospital) were submitted by the Residency Surgeon in consultation with the President, Municipal Commission.

Se 15/D (142-27)

If approved the President, Municipal Commission may be asked to submit plans and approximate estimates as

Vega.

regards item 11 (Provision of modern drainage and re-construction of public latrines)

The Residency Surgeon may also be asked to submit detailed proposals as regards item 10.

Two drafts submitted for approval.
